

Oasi 610 GL Motorhome

The Oasi series utilizes a Ducato chassis to which a sub aluminium frame is attached. The Monocoque body is attached to this sub frame. The body is constructed of GRP sandwich in one piece (Monocoque construction). The body and the cab are bonded together with a special process which results in a seamless join.

Description: drop down double bed with large skylight above. Side settee which can be used as 2 seats with seatbelts. Two bunk beds at rear (lower bunk can be removed to utilize full garage space. Side kitchen. Driver and passenger seats are revolvable for use in lounge.
